

Med-Surg AM Huddle

Day 73 of pilot – Tues

- SBAR – most ppl OK now, takes ~4 min/pt
- SSG Williams: "feels like checking boxes" **X**
- SGT Choi: caught wrong dose 3x this month
 - Whitfield 412 (Coumadin)
 - Reyes 408 (heparin gtt)
 - Powell 415 (insulin sliding scale) **★**
- night → day worse than day → night (??)
- new grads love it / 20+ yrs hate it
- travelers: actually helps (don't know our system)
- ICU's complaint = #1 time
- ~~"old way was fine"~~ – was it tho?
- someone said the 4 events last Q were all p.m. shift change – true???
- SGT Ramirez wants to drop "background" section if pt on unit > 3 days
- patient education – do we mention family in SBAR? **not in template now**
- need: shorter template for stable pts
- **GET BACK TO:** did near-misses really go up or are we just reporting more
- call Henderson re: Bed 410 (DOB 03/22/1949) – family meeting Thurs
